

Would you like to
REVIVE
 your skin's
BRILLIANCE?

Revivo is a unique *Quanta Skin App*, available only on the Chrome Lase Station to refresh and redefine your skin's natural beauty. This non-invasive, full-face laser treatment **targets sun damaged** and aging skin, including **wrinkles, dark spots, and blood vessels** in multiple skin layers.

It efficiently reduces redness and skin irregularities, while simultaneously firming tissue for a **revitalizing look**.

WHO

is it right for?

A **Revivo** treatment is recommended for anyone looking to **reduce** the appearance of **wrinkles, age spots** and pigmentations and **skin redness**/benign vascular such as rosacea, telangiectasias and unwanted blood vessels.

HOW

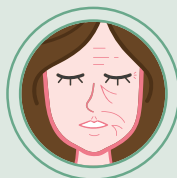

does it work?

Revivo uses different laser technology to target specific areas of your skin. One laser stimulates collagen and elastin production to **firm** up skin, promoting fewer lines and wrinkles. Other lasers on the same device help with color correction to create **more even-toned skin**.

Revivo offers a non-invasive solution with limited down-time and visible results after just a few sessions.

WHAT

can be expected?

Avoid sun exposure or tanning for two months prior to treatment

Sessions on average last 30 minutes

Your provider may use skin cooling numbing cream for added comfort

Skin may be slightly red and brown spots may darken temporarily

Cold compresses can be used for a few days after treatment. Wear SPF 50+ for at least 1 month

Can see results in 1 to 4 treatments with final results seen a few months after the last session

FOLD

WHY

should I try it?

- Smooth wrinkles
- Fade dark spots
- Reduce redness
- Improve skin tone and texture
